

18th-19th of September 2019

East Tallinn Central Hospital

Tallinn, Estonia

Annual Vascular Workshop

On behalf of the organizing committee we are pleased to invite you to the “Annual Vascular Workshop“ on September 18th-19th, 2019, in East Tallinn Central Hospital, Tallinn, Estonia. The course consists of 2 practical days of learning and training. We are simultaneously planning presentations, discussions and live case transmissions from cathlab of East Tallinn Central Hospital.

The aim of the 1st day workshop is to give update into the role of vessel preparation (Rotarex thrombectomy, scoring devices, lithoplasty) in endovascular treatment of peripheral artery disease, advanced endovascular treatment of CLI and diabetic foot, pharmacomechanical thrombectomy of DVT.

The 2nd day is focusing on embolization: venous embolization of pelvic congestion syndrome, haemorrhoids and prostata embolization.

A limited number of participants can observe the procedures in the cathlab. The access to the cathlab is ensured on a “first come-first served” basis. We will inform you about the details of the programme shortly.

Venue

V. Tuppits Auditorium (H-building) & Cath lab (A-building, ground floor, room RAO136)

East Tallinn Central Hospital, Ravi Str. 18, 10138 Tallinn, Estonia (see the map).

During the breaks of the workshop you are welcome to visit the exhibition of medical supplies and procedures introduced in the workshop. The exhibitions are open from 8:15 AM on both days.

Local Faculty

Dr. Sulev Margus (East Tallinn Central Hospital, Estonia)
